SUMMARY

I am a Certified Professional Landman and effective oil and gas professional with nearly two decades of industry experience across a variety of geologic and geographic areas, with the greatest focus being in the Permian Basin. I am a knowledgeable leader who has continuously been trusted to efficiently handle critical matters of great importance.

RELATED EXPERIENCE

Lontra Energy Consulting LLC

Owner/Principal

2019 to Present

- Consulting on oil and gas operations and mineral ownership and management from a company in-house perspective.
- Sharing insight and strategy on the implementation of emerging technologies and software.
- Providing education, training, and outlook to the energy industry.

Energen Resources Corporation

Land Manager

2014 to 2018

- Led the company's land and business development efforts in the Midland Basin (Texas).
- Organized the land staffing contributions for \$1.0+ billion capital programs.
- Engaged in acreage trades, deals and agreements to heighten the overall value of the company's extensive asset base
- Advised on strategic transactions and partnerships for enhanced company value.
- Coordinated with the Vice President of Land on long-term development and plans for the land organization.

Chesapeake Energy Corporation

Land Manager

2011 to 2014

Landman

2006 to 2008

- Directed the land component of a drilling program of 21 rigs on the company's 308,000 net acres of Eagle Ford Shale leasehold.
- Mentored and trained employees and supervisors to enhance their skill sets and development.
- Entrusted as the land lead on the transition of the company's Permian Basin assets to three separate, major oil and gas companies in \$3.3 billion worth of divestitures.
- Prior to divestment, coordinated the company's prior Permian Basin land holdings of over one million net acres in Texas and New Mexico.
- Enhanced the leasehold base and established the company's drilling presence in the Midland Basin in West Texas.
- Provided land authorization for wells on multiple rig line drilling schedules.

PostRock Energy Corporation, formerly Quest Resource Corporation

Land Manager

2008 to 2011

- Oversaw all individuals and aspects of the land department, including lease acquisition and administration, well preparation, division orders, and surface management.
- Integrated the 130,000 net acres of the company's new Appalachian Basin assets into the company portfolio and land database.
- Counseled closely with and generated numerous recommendations to the company's executive leadership.
- Maintained over 400,000 net acres in the company's leading Cherokee Basin asset.
- Influenced negotiations and led transitions for several critical acquisitions and divestitures.

**ConocoPhillips Company, formerly
Burlington Resources Oil & Gas Company**

Landman 2005 to 2006

- Responsible for the land functions in the federal units operated by Burlington Resources in the San Juan Basin.
- Determined and verified lease ownership for upcoming ventures.
- Resolved contractual needs for future developmental projects.
- Assisted in general land functions relating to internal software systems.

Vernon L. Smith & Associates, Inc.

Associate Landman / Broker 2003 to 2005

- Ascertained ownership in minerals through the research of public and private records.
- Negotiated and acquired oil and gas leases from Oklahoma land and mineral owners.
- Conducted and carried out title curative.

ADDITIONAL EXPERIENCE

- Land internships with Continental Resources, Inc. and Burlington Resources Oil & Gas Company.
- Labored in field operations as a roustabout in the construction of pipelines, tank batteries, and saltwater disposal installations.
- Formulated and instructed classes for learning Spanish and English.

EDUCATION

University of Oklahoma Norman, Oklahoma

- Bachelor of Business Administration in Energy Management
- Minor in Management Information Systems
